Report on Participation of Students in One-Day Workshop on Social Scientific Responsibility (SSR) at IUST Awantipora, Kashmir

A group of 16 students of semester 4th & 6th from the Department of Physics GDC Anantnag participated in a one-day workshop on Social Scientific Responsibility organized at the Islamic University of Science and Technology (IUST), Awantipora, Kashmir, on 21/04/2026.

The workshop was aimed at creating awareness among students about the role of science in addressing societal issues and fostering a sense of responsibility towards community development. The programme featured expert talks, interactive sessions, and discussions focusing on ethical practices in science, sustainable development, and the application of scientific knowledge for the betterment of society.

The participating students actively engaged in the sessions, gaining valuable insights into how scientific approaches can be utilized to solve real-world problems. The workshop also provided a platform for exchanging ideas and enhancing critical thinking among the participants.

The participation of students in this workshop proved to be highly beneficial, as it broadened their understanding of social responsibilities associated with scientific pursuits and motivated them to contribute meaningfully to society.

Overall, the workshop was informative, enriching, and successful in achieving its objectives.
